Swetha S

Full Stack Web Developer

PROFESSIONAL SUMMARY

A Full Stack Web Developer specializing in the MERN stack, with experience in resolving technical challenges, debugging complex issues, and collaborating with cross-functional teams. Adaptable and quick to learn, seeking a role to utilize my technical skills and problem-solving expertise in a dynamic environment.

WORK EXPERIENCE

Bravura Technologies

Support Engineer | September 2024-present

Job responsibilities:

- Resolved customer tickets and chats to ensure satisfaction and smooth operations.
- Debugged issues, improving problem-solving for backend and frontend tasks.
- Worked with teams to solve technical challenges, showcasing teamwork and communication.

PROJECTS

1. Weather App | |

JavaScript | React | Git | HTML5 | CSS3 |

Responsive Web Design

- Developed a dynamic Weather App using React, providing real-time weather updates and location display.
- Implemented efficient routing for seamless navigation between different sections of the app.
- Utilized Weather API to fetch and display accurate weather data.
- Completed the project independently in 3 days, highlighting adaptability and rapid learning capabilities.

2. Todo App | |

React | Git | JavaScript | HTML5 | CSS3 | Node.js |

Express.js | MongoDB | Responsive Web Design

- Developed a comprehensive TODO app using the MERN stack, facilitating seamless task management with features like login, signup, logout, add, and delete.
- Implemented efficient server-side APIs with Node.js and Express.js to handle user authentication and task operations.
- Designed and built reusable React components, ensuring a cohesive and responsive user interface across all screen types.
